SALISBURY, N. C. TUESDAY, MARCH 3, 1856. Vol. 3 .-- No. 38. Whole No. 142.

From the North Carolina Stundard. COL. JOHN F. HOKE.

It will be perceived, from the following letter, addressed to the Editors of this paper by Col. John F. Hoke, that that gentleman has ceased to act with the Know Nothings; that his appointment as a delegate to Philadelphia does not meet his approbation; and that he was never even notified of his appoint-

LINCOLNTON, Feb. 18, 1856.

Messas. Entrons: In your journal of the 13th inst., I am called on to state whether or not I am a delegate to the Convention of the American party to be held at Philadelphia on the 22d inst., and to define my position on the principles of the Order. I do not recognize the right of any one to require me to give my views on any subject; but in this instance, to prevent misconstruction, I shall answer both

I am not a delegate to the said Convention If such an appointment has been made, I have not received any authentic notice of the fact, or I should have respectfully declined it. Neither does the appointment (which I now take for granted) meet with my approbation.

My intercourse with the organization having reased, I could not consent to take part in the deliberations of the Convention, when I do not expect to be bound in any way by its conclus ons. My opinions on the platform of the American party were made public in a speech to the people of Lincoln last summer. They

J. F. HOKE. Here is another specimen of the honesty which characterizes the Know-Nothing organ ization in this State. It seems that Col. Hoke and John II. Haughton, Esq., were appointed transact their business at the very lowest rate delegates to the Philadelphia Convention by the K. N. State Convention, which met here in October last, over which Gen. Dockery presided; and that Mr. Haughton was duly informed of his appointment, and that Col Hoke was not. The secreev, it was stated, was at that time entirely abolished. It was rumored in private circles that Col. Hoke and Mr. Haughton had been appointed. We called repeatedly for information on the subject, and indeed for the publication of the proceedings of the Convention; but no answer was given; and the people of the State, though told that all secreey had been thrown off, were still kept in the dark. At length, a short time before the period for the meeting of the Philadelphia Convention, the Register announced the names of Col. Hoke and Mr. Haughton as delegates-but that was all We respectfully called on that paper for its authority for making the announcement, but a stillness as of death and chaotic darkness followed, as on former occasions. Injustice was thus done Col. Hoke, while at the same time his name, as that of a prominent Demoerat, was freely used privately, for effect, to add strength to the tottering and detestable organization. Mr. Haughton is a Whig, and he was of course notified of his appointment and furnished with credentials. Their object in this course towards Col. Hoke, was twofold; first, to injure him with the Democratic party; secondly, to use his name and his influence privately to bolster up their organization .- But that gentleman has, for months, ceased to act with them; and we are confident that, for the future, they will feel the effect of

LOOK OUT FOR COUNTERFEITS .- We SAW, ew days ago, one of those counterfeit \$20 notes on the Bank of Charlotte, which have been heretofore described in this paper. It i a dangerous counterfeit, requiring consider able knowledge of bank notes to detect it. This one came from one of the upper counties, and we understand that several others have

been detected here. P.S. Since the above was in type we have seen another of these counterfeits, which came from a different county from the first. We fear they are widely scattered.

He further stated that, "out of the one hundred and three (103) votes cast for Mr. Bank, only (34) were Black Republicans. The balance, sixty five, (65) Mr. Chaffee assured the Council were true Americans."

At the regular meeting of Conneil No. 17 in Springfield, the following resolutions unanimously adopted:

Resolved, That the American mem bers of Congress from New England are entitled to the gratifude of the country and the thanks of their constituents, for the famoess with which they sustained the cause of freedom in the recent severe and protracted struggle in the United States House of Representatives.

Resolved, That we point with peenliar pride and satisfaction to the conduct being national ground. They are from the South. calumny that the American party in this State.

Resolved. That the election of a free Sate Speaker of the United States House loss of the whole question, and a destruction of Representatives, on the distinct and well understood issue of opposition to the slave power, is an epoch in the history of our country, and an event in which the friends of humanity may take fresh conrage; and it is an event, moreover, for which the country is largely indebted to the American party.

THOMAS CHUBUCK, Secretary Again: Mr. Banks was elected to the present Congress as a Know Nothing. and has never disclaimed his connection or sympathy with the Order, although called on in the House to do' so. Mr Pelion, a Know Nothing member o Congress from New York, and a supporter of Banks, wrote a letter home to instity his vote, in which he said:

"The Councils should not forget that it was Banks who so gallantly led the American forces in the last Congress, and that during the late canvass in Massa chusetts, he proclaimed and defended bi uself as an anti Nebraska American .-He is now a member of the 'Order' in good standing at home. This much for his Americanism."

Does it not inevitably follow, therefore, that the election of Banks, and the consequent control of the House by the free soilers, is directly due to the direful influence of bigoted Know Nothingism? Is it not through the blighting inflience of the same detestable party that, in this Metropolitan District, the political fortones of Mr. Botts, with al. his odious and mischievous principles, have recents ly been revived, and his Presidential aspirations are warmly and unceasingly pressed by his zealous and devoted admirers? When the whole career of Know Nothingism is reviewed, with its miserable fruits of persecution and oppression and its abolition triumplis throughout all the North, is it not a mat ter of special wonder that any true South ern man, any genuine patriot in the land, can lament its rapid decline!

> A RAIL-ROAD BANK. [PUBLISHED BY REQUEST.] From the Saliebury Herald. MESSRS. EDITORS:

Though you live directly on the line of the North Carolina Rail Road, I an sorry to see that you have had nothing to say in favor conferring Banking privileges on this great work.

Judging from the success of all the banks that I know of in this country, that are connected with similar works, I feel confident if a Bank was chartered nearly upon the terms proposed last Winter. such an institution could not fail soon to relieve the people of heavy taxes, and al timately the State of debt; while, in the meantime, it would, in no small degree, of our Massachuseus delegation as furns be histrumental in building up our own

As our Banks are now organized, they do little or nothing to foster and stimu ate the industry of the country. You are aware that our Busking capital is, to speak in round numbers, not more than six millions of dollars. This sum is altogether usadequate to the wa: Is and necossities of our people. As proof of this, compare our Binking capital, wealth and population, with any or all of the old thirteen States, and see how it dwindles into a mere trifle when compared with any of them-especially with the most powerful and thrifty—say Massachusetts, Rhode Island or Connecticut. Another evidence of this fact, there is scarcely a day passes but there are a number of tion of a man sleeping, and what is rea little of my experience-and I will say quick as thought, it left the leg. And as the Banks get as much discount from them as any other class of customers, and can sell the drafts they procure from them for one and a half per cent premium, of course it is to their interest to accommos date the speculator before any other of their customers.

I could refer to many instances, in my own personal knowledge, where men en gaged in manufacturing Iron, Cottonyarn, Cloth, Leather, Mining, &c., have been refused discounts on as good paper as ever touched the counter of any Bank, and the next day the speculator was furnished all he desired, for the reason above stated. Now let us suppose, for a moment, that Banking privileges were con ferred on the N. C. I know this has been the case in Georgia, and to some degree in South Carolina; and it could not fail to have the same effect in this State. At any rate. I, and many others in this section of the State, are for it; and will spare no pains to promote such men as go for this important reform. We congratulate every friend of North Carolina on the facts disclosed within the last two or three weeks. We have a mine of wealth inexhaustible, capable of making this part of the State-indeed the whole State-what Pennsylvania is; for she has rushed forward in the career of prosperity, of population and wealth, in consequence of her coal and iron. We have both, of the best quality and in it exhanstless quantity, within 40 miles of this town, of navigable water, and within 140 miles of the ocean.

A lively feeling of satisfaction has been produced here by the discoveries. We did not previously doubt that our rail road to the Coal Fields would be built .-But it was a hard struggle. Now we think the way is cleared of much of the difficulty. The work will be done more e sily and more speedily .- Fay. Observ.

THE WAY TO CURE ILL NATURE .--The Criterion has the following annecdote concerning Rogers: "I was in company," says our informant, "with the late. DEMOCRATIC MEETING IN CATAWBA.

We are requested to give notice, that a meeting of the Democrats of Catawba County, will be held at the Court House in Newton, on the 15th of March, for the purpose of ap pointing delegates to the State Convention.

THE NOMINEES.

The motley Know Nothing rabble met on the 22nd alt, in Philadelphia, and after sevthe surprise of many, succeeded in making a nomination. On the first ballotting MIL-President; and A. J. DONELSON, of Tennessee, a renegade Democrat who bolted his party because of his ineffectual attempts to appropriate the five loaves and two fishes to his own gormandizing maw, this A. J. Donelson has been placed second on the list to bolster up the party. Mark it, an appeal will be made during the campaign, to the Democrats hot chesnuts, we, for one, will throw up our at home; four millions for the spread of the hat. The Convention was anything but hardisgust, then, the North, or a part of them, no account is taken of the many millions of followed suit.

The Whig General Committee in New York have held an informal meeting, to consider the nomination at Philadelphia of Millard Fillmore for the Presidency. A proposition to fire one hundred guns in honor of his nomination was opposed as calculated to give offence to the Know Nothings by "taking the by nearly four millions of population. wind out of their sails," but was finally adopted. The New York Courier (Whig) says of the nomination of Mr. Fillmore, that it is the first time in American politics that a party has ever been obliged to go out of its own rale for an available candidate. A majority of the delegates from his own State says, "the nominee is not a member of the American party; he has never been inside of a council room, and no act of his life, no word spoken or line written by him, which we have rny knowledge of, indicates that he has any sympathy with the party, or would carry out its

Concerning the nominee for the Vice Pres idency, the Washington Star Says:

"He resided here for many years, and is well remembered, especially on account of General Jackson's memorable saying, that ev ery body had his pest; for his part, if it were not for Donelson, he should have nothing in the world to trouble him. The truth is, Donelson was his Monsieur Malapropos. Being a family connection of his wife, the General was forced to tolerate him about him, and to grin and bear with all the philosophy he could muster, the 'erapes and dificulties into which Donelson was constantly getting him. Inelson's most remarkable trait is an abiding want of common sense, which has prevented him, notwithstanding the prestige of his relationship to the wife of Jackson, from having the least political weight where personally from the native population. Then, why dread

He ratted from the Democratic party because President Pierce refused to take him and certain members of his family for office, at his own valuation. For months before he turned up a Know Nothing, the locofocos of Nashville were cracking jokes about his lamentations over his failure to get what he asked of the Administration and the undignified and impotent personal abuse showered by him at the street corners for the benefit of street speech, and by the worshipping of God accorner audiences, on the President. His nomination is worth to the Know Nothing cause in Tennessee, at least a clear loss of some 2,-500 votes; for the mental and political calibre of Major Andrew Jackson Donelson, is well known throughout all portions of that State."

FOR KANSAS.

The Charlotte Democrat says a number of young gentlemen from that town and vicinity have formed an association for emigrating to Kansas, as soon as they can make preparations for the journey. Sixteen had already joined, four more being required to complete the company. "THE UNION-IT MUST BE PRESERV'D."

The Greensboro' Patriot has hoisted to its mast-head the names of Fillmore and Donelson, with the above sentiment of Gen. Jackson! When did that paper ever before find a sentiment of this Hero and Statesman that he endorsed! The Patriot is evidently looking to the Democracy for 'aid and comfort' in its unholy cause.

"LET US ALL LAUGH!"

AND THE PEOPLE IMAGINED A VAIN THING."

The Rev. Stewart Robinson has delivered an able, and eloquent Lecture, in the hall of the Maryland Institute, on the "Present Condition, and Prospects of Evangelical Christianity in the United States."

We desire to exhibit a few facts, contained in this admirable address: Then, let our Know Nothing readers, shun their midnight conclaves! Spurn the treacherous friendship of their Northern Allies! and stand by their eral days of most disgraceful proceedings, to God-The Constitution and the Laws, as prompted by elevated virtue, framed by assembled wisdom, and executed in those days LARD FILLMORE, of New York, was chosen for of nobility and honor-the days that "tried men's souls"; when we boasted of offering an asylum for the oppressed-a home to the down trodden of every clime.

The South at one time left with in their houses of worship. In this estimate dollars invested in schools, colleges, and seminaries under the control of Evangelical deno

> Thus it appears that out of a population estimated at twenty six and a half millions nearly two thirds of the whole are members in full communion or under the direct influ ence of Evangelical Churches.

Having exhibited to us this picture, Mr. Robinson presents to us another. The Roman Catholic Church in the United States claims two and a quarter millions of population in connection with it. But the Presbyterian Churches alone, have associated with them by ties of birth, education, and membership two millions of population, while the value of their church buildings is just twice that of the Catholics. And were there no other Evangeli cal Church in the United States, but the Baptist, it alone would out number the Roman Catholic by nearly three millions, while the Methodist Church alone would out number it

And yet there are those in our midst, every day telling us of the preponderance of Catholic power, and the dreadful consequences of Catholic influence.

"Verily, these people have imagined vain thing."

But in estimating the Roman Catholic membership at two millions and a quarter, one most important fact is to be kept in remembrance. While the ranks of Evangelical Churches, are increased by additions from the native population; the recruits to the Romish Church come mainly from abroad, and from the foreign territory purcha ed, or conquered by the United States.

This is a very important fact to be kept in mind, in estimating the relative growth of Protestants and Papists, as compared with the growth of the country itself. Most of the new territory added to our domain has been Roman Catholic territory, and thus as Mr. R. says. some half a million have been converted into American Catholics by act of Government, and not by the Church. Now mark you, this dreaded Romish Church-not equalling in wealth or numbers, either the Presp, erian, or Baptist denomination alone -is not increased powering numbers? In truth is she not, (the Roman Catholic Church,) destroying herself, for remember she is not increased from the native population. Where then, is this native population? The answer is plain, and evident. They are Protestantized by the glorious freedom of Christ, the liberty of thought and "Verily this people have imagined a vain reaped? thing." Give us Religious Liberty! the magic watch word of former struggles-words, around which cluster the sweetest memories of the

Another significant fact presented in this Lecture, is with regard to the Distribution of this Roman Catholic membership.

There was a time when we had an open field and a fair fight, with "foemen worthy of to the Republic? our steel .- The great, chivalric Whig partywhich numbered in its ranks gentlemen of the brightest intellect, and purest virtue.

But instead of Whiggery, we have now an adversary that skulks the light-that fights Indian like in ambush, or rather assassin like, with midnight conclaves, secret organizations, and stealthy tread, would stab you to the heart or throttle you unarmed and defenceless with overpowering numbers. The American Party! Why, some members of the American party that used to be, disclaim any relationship whatever. They have "stolen their thunder" and hope to lure you from your duty, and gull you with the patriotic title they have assumed. American indeed! with the London Times, born in New York-we will not be too pararouse a suspicion of illegitimacy.

Do you believe that a party originating as this does, and North of Mason's and Dixon's line, has your interests at heart, or any sympathy with Southern Rights, or Southern Institutions. Ah! Samuel! you are a foreigner, not born on Southern soil and we will carry out your own doctrine-forbid, and prohibit | Judge ye between them! for veri'y "this your immigration.

Ah! there is discontent, trouble and secession in Samuel's own household-one thinks champagne bottles could be piled nearer heaven, than they will ever get; many are bidding brethren a "long farewell"; and ere long we will lay Samuel the veritable, aside to sleep, not like his name-sake in the Bible-they profess to be so greatly concerned about, and to devoutly revere, with the quaking fear, and holy horror lest it may fall into Catholic hands-for Biblical Samuel heard his master's voice and awoke- but spurious, Northern born, Negro loving, anti-American Samuel, will soon sleep so soundly, that Deity itself can scarcely disturbe his slumbers. "The house divided against itself must fall." Then too, with what precision and accuracy they define their position, nevertheless they harmonize the delegation from Louisiana, and welcome the anti-12th section members from Pennsylvania. Why fear their over- | ship sounds like footsteps on the ladder of immortality." Do you remember his gallant Frenchmen -the flower of our little army-"noble, generous, daring to a fault." Would you forbid them as gleaners cording to the dictates of their own consciences, in the rich harvest you have so abundantly

MESSRS. CRAIGH AND RICHARDSON On Monday last, in the House Representatives, the Hon. Burton Craige, of this State, having obtained general consent to make a personal explanation,

"Mr. Speaker, I have received within the last few days several papers, published in my own State, and several out of it, which, in order to fix the responsibility of your election as Speaker upon the Democratic party, have given other reasons, the fact that, on the final vote, my name did not appear upon the

Now, as I do not think proper to have this impression go to the country without correction, I desire to state to the House, what is well known here, that, on the 25th day of January last, my colleague Mr. Ruffin announced upon this flor that I had paired off from that day until the 6th day of February, with Mr. Hughs-

You, Mr. Spenker, were elected on the 2d day of February. Neither of us therefore, were present on that day, and neither of us voted. Had we both been here and voted, the result would have been precisely the same. I need not say to you, sir, for to the members of the House, that no member more strennously opposed your election than I did; and I need not add in this connection, that had I been present, and at liberty to vote on that occasion. I should have voted for Mr. Aiken of South Corolina, for whom I have always entertai ed the kindest personal feelings, and with whom it has been my pleasure to act, politically, during the time I have served with him in Congress,"

Mr. Hinghston followed, also setting himself right before his constituents. He stated that he had paired off with Mr. Craige on all questons during the time mentioned, and neither had voted until the time fixed had elapsed. He added-

"I had perfect confidence in Mr. Craige's integrity; I suppose he had like in mine. No harm was done on either side. The Democratic party, to which he belonged, was not harmed by his absence; nor was the Republican party, the principles of which I professed, in the 'east injured by my absence."

Mr. Richardson also took occasion to repeat that he had paired off with Mr. Emrie; otherwise he would certainely have voted for Mr. Aiken for Speaker He stated to the Speaker (Mr. Banks) that it was well known be was opposed

"If, sir, I had reasons for that opposition the voice of political detraction, as far as then, they are doubly strengthened now, our Chief Magistrate is concerned, has I know that, if my friend from South cannot withhold an expr ssion of our the section of the country from which I come—the fifteen States west of the Alles ghany monttains - would have had some Representatives upon the Committee on Naval Affairs; that in the danger which is now impending over us, some voice would in that committee be heard in favor of increasing the Navy till our gams could protect our commerce, and take care of our interests in every ocean upon the glote. There would have been from those fifteen States more than one voice upon the Committee on Foreign Affairs, to urge, by all honorable means, the settlement of all difficulties between this country and Great Britain; but if our difficulties cannot be honorably settled, if war must be, then there will be a million of soldiers ready to pour out their heart's ciation of his eminent services by cas'ing | blood to defend our honor, our rights, and our soil beneth the flag of our whole country."

Where was Mr. Fuller? Had he paired off? If so, let the country have the proof.

HON. HENRY M. FULLER .- We pula lish below a letter written by Mr. Fuller, in August, 1849. This is the same man who was supported by Southern knownothings for Speaker, and who was so much praised by them for his devotion to the rights of the South.

To the tenacity with which they clong to him, is due the election of Mr. Banks, and the consequent defeat of Mr. Orr. But

"You state in your letter that the freesoilers will hold a convention at livde Park on the 30th instant. There is a pretty strong probability of my being in the field for canal commissioner, and it would certainly aid my prospects very materially to receive a nomination from your party. I am in favor of freeso !, free speech, free labor, and free men being a Wilmot proviso man up to the hub, and utterly opposed to the extension of slavery "The matter will require prudent

management, and I know of no man can accomplish it better than yourself. It would be bad pol cy to attempt it without a certainty of success. WHAT HAS KILLED THE KNOW NOTHINGS? -The American party holds what is called a National Convention at Philadelphia next week. At the instance of the accused party a postmaster had opened a letter thus sealed, shown him the contents, and resealed it without detection. This can be readily done. All that is necessary is to moisten the adhesive matter, which can be done by wetting the tongue of the envelope and allowing it to remain in that condition a few minutes. The letter can then be opened with facility, will indeed sometimes fly open, and can be resealed in the original manner, especially if the adhesive matter has originally been liberal; otherwise a little gum is added. Detection is impossible. A London paper says: "The inference is inauspicious, and we f ar we must return to the age of sealing wax. or demand a really adhesive invelope. We apprehend that it will be difficult to supply Beeswax, such a demand, as whatever means are requisit : to seal it will be sufficient to unseal it." N. Y. Commerical Advertiser.

This, however, he declined considering; the proceeding too hasty, but consented to the interment taking place the following morning. The result proved the propriety of the delay. The grave was dug and the coffin ready : but the dead man, in the course of the night, made signs of returning animation; and at the hour fixed for the burial was in the comfortable enjoyment of a cup of coffee which he had requested, with every prospect of recovery.

der it a repository of pleasing and profitable reading, a faithful record of events, and an agreeable companion to the Home Circle. In matters of public policy, both National and State, it will yield an unwavering support to Democratic measures, and a zealous advocacy of the Democratic cause; sustaining to the height of its ability the principles of the Balti-more Democratic platform of 1852, as agreed upon by the Party, and sanctioned by a large

majority of the American People.

Against the recently organized "Know Nothing," or "Native American" mevement, the Sentinel will take decided and unequivocal ground; regarding the creation of a religious test as qualification for public office, at variance with the letter and spirit of the Constitution, opposed to every principle of Republicanism, and worthy only the ignorance and intolerance of a darker age. Acting from a firm conviction that honesty, capability, and fidelity to the Constitu-tion, (aside from political principle,) are suffi-cient requisites in candidates for offices under a Republican form of government, we shall oppose any organization, whether secret or upen that seeks to create a barrier between the native and adopted citizen, or to deprive either of the right and privileges enjoyed under the Constitution and Laws, as they stand. In short, our position and sentiment upon this subject will be: PRINCIPLES-not birth-place; MEASURES The paper will be devote ly attached to the

Thou art my native home.

Thy rivers roll their liquid wealth Unequalled to the sen; Thy hills and valleys bloom with health And green with verdure be: Yet not for thy proud ocean streams --Not for thine azure dome,

Sweet "Sunny South," I cling to thee,

Thou art my native home. I've stood beneath Italia's clime, Beloved of tale and song— On Helvin's hills, proud and sublime, Where nature's wonders throng;

By Tempe's classic sun-lit steams, Where gods of old did roam, But ne'er have found so fair a land As thou, my native home. And thou hast prouder glories too,

Than nature ever gave, Peace sheds o'er thee her genial dew, And freedom's pinions wave. Fair Science flings her pearls around Religion lifts her dome, These endear thee near my heart— My own, my native home.

And God's best gift to man is thine. God bless thy rosy girls; Like sylvan flowers they sweetly shine, Their heart as pure as pearls. 10 18310M grace and goodness circle them Where'er their footsteps roam-How can I then whilst loving them Not love my native home.

> > A CARD.

The necessity which forces one to appear before the public, as vindicator of his own character, is regretted by every man; and I abhor such a necessity as much as any one .-But the extraordinary circumstances by which I find myself surrounded, will be regarded as ample apology by every liberal minded man About four weeks since, I left home to make a visit to the State of Florida, departing publicly, and carrying with me, as I believed, the good wishes of my friends generally; what, is my astonishment, on my return home, at the time appointed, to find a report generally circula ted, that I had "clandestinely," left the State, not to return! But how much more must the public be astonished, when informed that it is believed that the slanderous report grew out of what, I think, can be shown to be the corrnpt oaths of certain designing man, who could not have been ignorant of my contemplated temporary absence! But such is the case. I submit, then, to an enlightened public if I am not justified in taking some steps to protect my reputation from the attempted aspersions of conspiracies so base.

To the friends who have stood by me, and defended my character during my absence, I extend to them my truly heartfelt thanks and I beg the suspension of public opinion, until all false impressions shall have been removed as publiely as they have been circula-

I do not ask the public, under the circumstances, to receive my own assertions alone, but I respectfully, and proudly refer to the appended certificate of a number of our best citizens.

I shall, as usual, attend to my official duties, which will commence, in Cherokee, on the 1st Monday in March.

W. Burton, Lsq., had "clandestinelg" left the State; or that he left home with any other than a fixed purpose to return home, at the time appointed.

The great Southern Weekly!

THE SPECTATOR WASHINGTON CITY, D. C.

A FAMILY JOURNAL OF LITERATURE AND NEWS FOR SOUTHERN READERS.

THE South has too long been dependent upon the northern cities for its periodical literature. The weekly newspapers of Boston, New York, and Philadelphia, have swept like a flood over that part of the nation south of Mason and Dixon's Line, many of them carrying with them some of the prejudices of abolitionism; and inculcating, to a greater or less extent, doctrines injurious to southern institutions. This dependence of the mass of southern readers should be thrown off-and it is believed would have been long ago, if there had been facilities in the South for the publication of first class literary papers. THE SPECTATOR.

Is published by a gentleman who has long been connected with some of the southern dailies, and has been undertaken to supply this want that of a high-toned weekly paper

FOR ALL THE PURPOSES OF A FAMILY PHYSIC

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pull, but not easy to make the best of all pilis—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss-of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gont, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of th

though no serious derangement exists; but un-necessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions see wrapper on the Box.

AYER'S CHERRY PECTORAL.

For the rapid Cure of COUGHS, COLDS, HOARSENESS. BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This remedy has won for itself such noteriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind it too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c.; and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout

that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is seld by— SILL & SILL, Salisbury, N.
